PROFILE

Data enthusiast with strong technical skills in SQL, Python, and Power BI, and a proven track record of delivering results in real-time analytics projects. Adept at transforming complex data into meaningful insights that enhance decision-making. Ready to take on new challenges and deliver value as a Data Analyst in a growth-focused environment.

WORK EXPERIENCE

Unified Mentor Pvt. Ltd. 07/2025 – 07/2025

Data Analyst Intern

- Collected, Cleaned, and Preprocessed raw data to ensure high data quality and consistency.
- Performed Exploratory data analysis(EDA) to identify Trends, Patterns and correlation.
- Utilized tools such as Excel, SQL, Python and PowerBI to derive actionable insights and present findings.

PROJECTS

Netflix Movies and TV Shows 07/2025 – 07/2025

- Analyzed Netflix data using SQL (PostgreSQL) to solve business problems, including content trends, ratings, regional performance, and actor insights.
- Used joins, CTEs, and window functions to clean and query data, providing clear insights to support better content decisions.

Amazon Sales Analysis 05/2025 - 05/2025

- Cleaning and transformed raw sales data to track courier status, fulfillment partners, and top performing
- products Using Excel, Sql, Power Query, DAX and PowerBI.
- Analyzed over 12M INR in Amazon product sales Using PowerBI dashboards.
- Identified that 85.6% of products were successfully shipped, and T-shirts led with 10K+ unit sales.
- Demonstrated analytical thinking and attention to detail while producing a visual report used for category-level sales optimization.

HR Analytics Dashboard 04/2024 - 04/ 2025

- Analyzed Attrition of Employees using complex SQL
- queries, Power Query and using Tools Excel and PoweBI.
- Identified 16.1% attrition rate was highest among Laboratory Technicians and Sales Executives.
- Discovered that employeesearning under 5K had
- highest churn - helping HR revise retention strategies.
- Applied data storytelling, communication skills, and business context understanding to translate raw numbers into executive -ready visuals.
